

CelloBrite®

CARPET CARE SYSTEM

CARPET RESTORATION PRE-SPRAY

TECHNICAL DATA SHEET

GENERAL INFORMATION

CelloBrite CARPET RESTORATION PRE-SPRAY utilizes the most advanced surfactant technology available to produce a cleaner that will break down and emulsify the soils, detergent residues, and mineral deposits found in carpets that have been maintained with cleaners that leave behind sticky detergent residues.

CARPET RESTORATION PRE-SPRAY in conjunction with CelloBrite DEEPDOWN Carpet & Upholstery Shampoo and CelloBrite RINSEBRITE Extraction Cleaner, helps restore carpet to "like new" condition. This is also the perfect system to thoroughly clean carpet in preparation for the application of CelloBrite CARPET & UPHOLSTERY PROTECTOR.

CelloBrite CARPET RESTORATION PRE-SPRAY is safe for use on colorfast fabrics and carpets not affected by water, including nylon, rayon, olefin, wool, and other natural and synthetic fibers. Always test for colorfastness in an inconspicuous area.

*As recommended by major fiber producers and carpet manufacturers, this cleaner does not contain optical brighteners.

DIRECTIONS

Use commercial vacuum or pile lifter before using CARPET RESTORATION PRE-SPRAY.

CARPET RESTORATION PRE-SPRAY is a concentrate and must be diluted prior to use. Best results are achieved when diluted with hot water.

RECOMMENDED DILUTIONS

<p>Light to Moderate Soil 6oz./gal. 1:8 Heavy Soil or Restoration 32oz./gal. 1:4</p>
--

Apply with a trigger, pump-up, or low pressure sprayer at a rate of 500 square feet per gallon of ready to use solution. Agitate carpet with pile brush to effect complete contact of cleaner with fibre. Allow solution to dwell 10 to 15 minutes before continuing to next procedure with CelloBrite DEEPDOWN Carpet & Upholstery Shampoo and one of the CelloBrite RINSEBRITE extraction cleaners.

To boost cleaning power of shampoo or extraction cleaner:

Add 1 to 2 ounces of CARPET RESTORATION PRE SPRAY for every gallon of water directly into the rotary or extraction solution tank.

CAUTION: Eye irritant. Avoid contact with eyes.

FIRST AID: In the event of eye contact, flush eyes with large amounts of clear water for at least 15 minutes. If irritation persists, seek medical attention.

SPECIFICATIONS

APPEARANCE: Gold liquid

FRAGRANCE: Citrus orange

pH: 9.8 ± 0.2

DILUTION: As recommended above

COVERAGE: 500 sq. ft. per gallon

VISCOSITY: Water thin

FLASH POINT: None

FREEZE/THAW STABILITY: Stable, minimum 3 cycles

SHELF LIFE: Minimum 1 year from manufacturer date of sale

KEEP FROM FREEZING
