TECHNICAL DATA SHEET

GENERAL INFORMATION

CelloBrite CARPET & UPHOLSTERY PROTECTOR with DuPont® Protectors for Soils & Stains fiber coating is a specially formulated fluorochemical treatment for all carpet. CelloBrite CARPET & UPHOLSTERY PROTECTOR may be applied to new or freshly cleaned carpet already on the floor. CARPET & UPHOLSTERY PROTECTOR coats the carpet fibers, and thus helps keep dry or oily soil from sticking to the carpet. Dirt releases more easily with vacuuming, resulting in increased vacuuming efficiency, cleaner carpet, and longer carpet life.

*As recommended by major fiber producers and carpet manufacturers, this cleaner does not contain optical brighteners.
