

**AQUA SLEEK
STAINLESS STEEL CLEANER - AEROSOL**

B53

TECHNICAL DATA SHEET

GENERAL INFORMATION

AQUA SLEEK is an environmentally responsible product designed to clean and polish stainless steel, porcelain, chrome, bright metals, and ceramic tile.

AQUA SLEEK is a water based emulsion without the hazards associated with oil based products. It is pleasantly orange scented with no trace of solvent odors.

The cleaning properties of AQUA SLEEK surpass those of the oil based products, removing waterborne stains as well as oilborne stains.

NOTE: Although AQUA SLEEK is a more friendly cleaner than current stainless steel products, it is recommended that it not be used on cooking utensils or other food contact surfaces.

DIRECTIONS

Shake well before using. Hold can upright. Press button and spray surface until covered with a thin coating of AQUA SLEEK. Wipe with a damp cloth. For best results, buff with a dry, soft cloth. On heavily soiled areas, apply a thin coating as above but allow AQUA SLEEK to stand for some time before wiping dry. Then lightly buff with a dry cloth to a high shine.

CAUTION: Contains petroleum distillates. Do not spray into eyes or take internally. Keep away from fire, sparks or open flame. Do not smoke when using. Use in well ventilated area. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F.

FIRST AID: If eye contact is made, flush with copious amounts of water for at least 15 minutes. If irritation persists, get medical attention.

SPECIFICATIONS:

APPEARANCE: White opaque liquid

FRAGRANCE: Orange

pH: N/A

SPRAY PATTERN FROM 8": 5 1/2" solid

DELIVERY RATE: 1.6 ± 0.2 grams/ 10 seconds

PROPELLANT: Hydrocarbon

FLAMMABILITY: Non-Flammable

CONTENTS OF CAN: 16 oz.
