

TECHNICAL DATA SHEET

GENERAL INFORMATION

AMMONIATED CLEANER/STRIPPER is a concentrated all purpose liquid detergent as well as an effective wax stripper. AMMONIATED CLEANER/STRIPPER features superior soil suspension, dispersion and low suds for all purpose cleaning. It works in hard or soft water and is biodegradable. AMMONIATED CLEANER/STRIPPER can be used on resilient tile, quarry tile, slate, and marble. Do not use on linoleum, rubber or cork flooring.

Dilute AMMONIATED CLEANER/STRIPPER with cool water. Do not use hot water.

RECOMMENDED DILUTIONS:

Automatic Scrubber/Machine Stripping:
Light Build-ups 13 oz./gal. 1:10
Normal Build-ups 16 oz./gal. 1:8
Heavy Build-ups 21 oz./gal. 1:6

DIRECTIONS FOR AUTOMATIC SCRUBBERS

1. Dilute AMMONIATED CLEANER/STRIPPER according to directions, in the detergent solution tank. Release stripper generously over a manageable area (not more than 500-750 sq. ft. at a time).
2. Allow stripper to remain in contact with floor for at least 5 minutes. Scrub area until old finish is completely liquified. **IMPORTANT:** Do not allow stripper to dry on floor.
3. Pick up simultaneously during final scrub. Areas along baseboards and in corners may need to be done by hand using a doodle bug or stripping pad center.
4. Rinse area with cool, clean water using clean string mops, until there is no evidence of residue left on the floor. Allow to dry thoroughly.
5. Floor is now ready for recoating with any Cello quality floor finish.

DIRECTIONS FOR MACHINE STRIPPING

1. Dilute AMMONIATED CLEANER/STRIPPER according to directions. Spread stripper generously over a manageable area of the floor with a mop. Allow to stand for at least 5 minutes.
2. Scrub floor with machine equipped with a nylon stripping pad or appropriate brush, until old finish is completely liquified. **IMPORTANT:** Do not allow stripper to dry on floor.
3. Pick up solution with mop or wet pick-up vacuum.
4. Rinse floor thoroughly with cool, clean water until there is no evidence of residue on floor. Allow to dry thoroughly.
5. Floor is now ready for recoating with any Cello quality floor finish.

WARNING: Contains alkaline materials and ammonium hydroxide. Use with adequate ventilation. Corrosive to skin and eyes. Protective equipment recommended. Non-penetrable gloves and eye protection.

FIRST AID: EYES: Flush eyes with large amounts of clear water for at least 15 minutes. If irritation persists, seek medical attention. SKIN: Immediately wash off with large amounts of water. If irritation persists, seek medical attention. In the event of overexposure due to inhalation, move victim to fresh air. If symptoms persist, seek medical attention. **IF SWALLOWED:** Do not induce vomiting. Drink large amounts of fruit juice or water. Do not give anything by mouth to an unconscious person. Seek medical attention.

SPECIFICATIONS

APPEARANCE: Straw liquid

FRAGRANCE: Slight ammonia

pH: 13.5

VISCOSITY: 90-110 cps

IONIC CHARGE: Nonionic & anionic

ACTIVE SOLIDS: Anionic and nonionic detergents, water conditioners, ammonia, amines, detergent builders, corrosion inhibitor, and preservatives.

CLOUD POINT: 35°F

FREEZE-THAW CHARACTERISTICS: Freeze-thaw stable - will reconstitute after freezing with agitation.

KEEP FROM FREEZING
