

CelloBrite®

CARPET CARE SYSTEM

LIQUID DEFOAMER

TECHNICAL DATA SHEET

GENERAL INFORMATION

CelloBrite LIQUID DEFOAMER is an excellent product for the elimination of foam in the vacuum pickup tank of any carpet extraction unit.

DEFOAMER is to be used only in the vacuum pickup tank. Do not apply DEFOAMER directly to the carpet.

*As recommended by major fiber producers and carpet manufacturers, this product does not contain optical brighteners.

DIRECTIONS

SHAKE WELL BEFORE USE. For use with hot water extraction units: Pour two ounces of DEFOAMER into the vacuum pickup tank or suck into vacuum hose. Proceed to clean and extract the carpet. If the carpet has a high degree of detergent residue from previous shampoos, additional defoamer may be necessary to prevent vacuum shutoff.

For use with any wet tank vacuum or extractor where foam producing residues may be found: Pour two ounces of DEFOAMER into the vacuum pickup tank to reduce foaming and vacuum shutoff.

CAUTION: Eye irritant. Avoid contact with eyes.

FIRST AID: In the event of eye contact, flush eyes with large amounts of clear water for at least 15 minutes. If irritation persists, seek medical attention.

SPECIFICATIONS

APPEARANCE: White opaque liquid

FLASH POINT: None

FRAGRANCE: Bland

FREEZE/THAW STABILITY: Protect from freezing

pH: 9.0 ± 0.2

SHELF LIFE: Minimum 1 year from manufacturer date of sale

DILUTION: 2 oz. into vacuum pickup tank

KEEP FROM FREEZING
