

**SILVER STREAK®**  
**FLOOR CLEANER & REJUVENATOR**

**Z28**

# TECHNICAL DATA SHEET

## GENERAL INFORMATION

SILVER STREAK is a dual purpose labor-saving floor maintenance product which can be used economically in an automatic scrubber to clean resilient floors while leaving behind a burnishable thermoplastic film.

SILVER STREAK is designed to eliminate the need for a separate application of a rejuvenator after the floor cleaning operation.

The cleaning portion of SILVER STREAK loosens soil and removes black heel marks which are lifted from the floor by the vacuuming action of an automatic scrubber. The remaining thermoplastic film can then be burnished to a high gloss with an ultra high speed burnisher.

If an automatic scrubber is not available, SILVER STREAK can be damp mopped directly onto the floor and when dry, burnished to a high gloss with an ultra high speed burnisher.

## DIRECTIONS

### For Automatic Scrubbers:

1. Remove loose grit or debris from floor with a broom or untreated dust mop.
2. Dilute 1 part SILVER STREAK to 13 parts clean water (10oz./gal.).
3. Fill solution tank with the prepared solution.
4. For moderate soil, equip the scrubber with polishing pads. For heavier soiled floors, use slightly more aggressive pads.
5. Scrub floor, releasing the diluted SILVER STREAK, and pick up simultaneously with the scrubber's wet pick-up vacuuming action.
6. When dry, burnish to a high gloss with an ultra high speed burnisher.

### For Damp Mopping

1. Remove loose grit or debris from floor with a broom or untreated dust mop.
2. Dilute 1 part SILVER STREAK to 21 parts clean water (6oz./gal.) in a clean bucket.
3. Dip mop into bucket and wring out to the point of not dripping. Damp mop floor.
4. When dry, burnish to a high gloss with an ultra high speed burnisher.

**CAUTION:** Harmful if swallowed. Contains Pine Oil. Eye irritant. Avoid contact with eyes.

**FIRST AID: IF SWALLOWED:** Do not induce vomiting. Drink large amounts of water. Contact physician immediately. **EYE CONTACT:** Flush eyes with large amounts of clear water for at least 15 minutes. If irritation persists, seek medical attention.

## SPECIFICATIONS:

**APPEARANCE:** White opaque liquid

**RESISTANCE TO BLACK HEEL MARKS:** Excellent

**SLIP RESISTANCE:** UL Classified

**DILUTION:** 1 part SILVER STREAK to 14 parts water

**BUFFABILITY/BURNISHABILITY:** Excellent

**pH:** 7.5

**FREEZE/THAW STABILITY:** Stable, minimum 3 cycles

**SHELF LIFE:** Minimum 1 year from manufacturer date of sale

KEEP FROM FREEZING
