

KLEEN STRIP NO RINSE STRIPPER

Z57

TECHNICAL DATA SHEET

GENERAL INFORMATION:

KLEEN STRIP is a unique formulation which eliminates the need to rinse after a stripping operation. KLEEN STRIP emulsifies finish and wax build-ups quickly for easy removal with a wet pick-up vac or mop. Since KLEEN STRIP ingredients are 100% volatile, no KLEEN STRIP residue remains on floor.

RECOMMENDED DILUTIONS:

For Machine Stripping:			Mop Stripping:		
For light build-ups	13oz./gal.	1:12	For light build-ups	13oz./gal.	1:12
For normal build-ups	16oz./gal.	1:10	For normal build-ups	16oz./gal.	1:10
For heavy build-ups	26oz./gal.	1:5	For heavy build-ups	128oz./gal.	1:2

DIRECTIONS FOR MACHINE STRIPPING:

1. Dilute KLEEN STRIP according to directions. Spread stripper generously over a manageable area of the floor with a mop. Allow to stand for at least 5 minutes.
2. Scrub floor with machine equipped with a nylon stripping pad or appropriate grit brush, until old finish is completely liquified. **IMPORTANT:** Do not allow stripper to dry on floor.
3. Pick up solution with mop or wet pick-up vacuum.
4. Rinse floor thoroughly with cool, clean water until there is no evidence of residue on floor. Allow to dry thoroughly.
5. Floor is now ready for recoating with any Cello quality floor finish.

DIRECTIONS FOR MOP STRIPPING:

1. Dilute KLEEN STRIP with cool water, according to directions. Spread the solution completely over an area covering approximately 100 sq. ft. Apply generously.
2. Let stand for at least five minutes. **IMPORTANT:** Do not allow stripper to dry on floor.
3. Agitate solution with mop until old finish is completely liquified
4. Pick up solution with mop or wet pick-up vacuum.

Note: If solution is mopped up, it is recommended that a second person should follow behind the one picking up the solution. This person should rinse the floor immediately with clear water to prevent the emulsified finish from redepositing.

5. Rinse floor thoroughly with cool, clean water until there is no evidence of residue on floor. Allow to dry thoroughly.
6. Floor is now ready for recoating with any Cello quality floor finish.

Important: Older asphalt tile floors may bleach or discolor. Use a dilution of 1 part KLEEN STRIP to 6 parts water and test in a small area.

WARNING: Corrosive to eyes and skin. Contains caustic material and 2-butoxyethanol. Use with adequate ventilation. Harmful if swallowed.

FIRST AID: EYES: Flush eyes with large amounts of clear water for at least 15 minutes. If irritation persists, seek medical attention. **SKIN:** Immediately wash off with large amounts of water. If irritation persists, seek medical attention. In the event of overexposure due to inhalation, move victim to fresh air. If symptoms persist, seek medical attention. **IF SWALLOWED:** Do not induce vomiting. Drink large amounts of fruit juice or water. Do not give anything by mouth to an unconscious person. Seek medical attention.

SPECIFICATIONS:

COLOR: Clear liquid

FRAGRANCE: Wintergreen

VISCOSITY: 5 centipoises

ACTIVE CONTENT: 31%

FREEZING POINT: 0°F

SPECIFIC GRAVITY: 0.99

FLASH POINT: None - non-flammable

SURFACE TENSION: 32 dynes per centimeter

pH: 11.6
