

THE NATURAL CLEANER/DEGREASER

TECHNICAL DATA SHEET

GENERAL INFORMATION

THE NATURAL is a 100% active, non-acid, non-caustic cleaner, degreaser, and deodorizer containing only environmentally safe ingredients. The primary component is a chemical derived from orange oil, giving THE NATURAL a pleasant citrus scent. This multi-purpose formulation is used to remove soils such as oil, tar, grease, crayon, lipstick, and rubber tire marks which are normally removed by high pH cleaners or dangerous solvents.

THE NATURAL's many uses include declogging drains; degreasing machinery, equipment and engines; removing grease and chewing gum from carpeting; removing plastic-based adhesives from hard surfaces; descaling hard water deposits and soap scum from showers & tubs, toilets, urinals, and ceramic tile; deodorizing dumpsters, septic tanks, kennels, and sewage plants; removing carbon from hard surfaces; and general all-purpose cleaning.

NOTE: THE NATURAL may be harmful to plastic or painted surfaces, and floor surfaces coated with a floor finish.

DIRECTIONS

GENERAL PURPOSE CLEANING & DEODORIZING: Mix THE NATURAL 2-4 oz. Per gallon of water. Spray or wipe onto surface. Allow to stand for a few minutes. Wipe clean. Rinse.

MACHINERY, ENGINES, RUBBER SKID MARKS & INDUSTRIAL CLEANING: Mix 4-8 oz. Of THE NATURAL per gallon of warm water. Spray or wipe onto the area. Allow to stand 15 minutes, keep it wet during this time. Wipe or scrub off. Rinse.

SOAP SCUM & FILM IN REST ROOMS: Mix 2-4 oz. Per gallon of water. Wipe area. Rinse.

TO UNCLOG DRAINS: Pour 8 ounces of THE NATURAL into the drain or grease trap.

CARPET & UPHOLSTERY: CHEWING GUM – Apply undiluted with cloth to one edge of the gum spot. As the gum is freed, pull it back by the edge and dab the area underneath the gum. As each portion is freed, keep pulling it back and apply cleaner until the gum is completely removed.

GREASE, OIL, TAR FROM CARPETS: Dilute THE NATURAL 6-8 oz. Per gallon of water. Apply with undyed cloth, working from the outer edges of the spot in toward the center. Keep exposing clean area of the cloth to the spot so as not to redeposit soil.

DEODORIZE DUMPSTERS, SEPTIC TANKS, KENNELS, ETC.: Dilute 4 oz. Per gallon of water. Spray or mop on area to be treated & allow to stand. Rinse.

FOR SEWAGE PLANTS: Dilute 4 oz. Per gallon of water, apply by drip method or fogging.

DANGER: HARMFUL OR FATAL IF SWALLOWED. EYE IRRITANT. Contains petroleum distillates and terpene hydrocarbons. If swallowed, do NOT induce vomiting. Get medical attention immediately. Avoid contact with eyes, and repeated or prolonged contact with skin. If eye or skin contact occurs, flush thoroughly with water. If eye or skin irritation persists, get medical attention. KEEP OUT OF REACH OF CHILDREN.

COMBUSTIBLE: DO NOT USE NEAR HEAT, SPARKS, OR FLAME.

SPECIFICATIONS:

APPEARANCE: Clear orange liquid

FRAGRANCE: Orange

pH: Not tested

d-LIMONENE CONTENT: 73% min.

SOLUBLE IN WATER: Yes

SPECIFIC GRAVITY: 0.88

SHELF LIFE: Minimum 1 year from manufacturer date of sale.

FREEZE/THAW STABILITY: Stable – Minimum 3 cycles (ASTM Test D-3209-82)
